Google CloudSQL, mssql, TailwindCSS,
NetSuite, GitHub, Figma, Photoshop, VS
Code, AI Tools

Language

- Lao (Native)
- Thai
- English

Professional Experience

2023 - Present

Software Engineer

Sala Daeng Company Limited

Bangkok, Thailand

- SaaS Products:** Develop and maintain the company's in-house SaaS products and internal tools, including an AI-powered feature for the financial domain that integrates large language models
- Mobile Development:** Build and ship cross-platform mobile apps with NativeScript and Flutter, deploying to the App Store and Google Play for client projects, internal tools, and the company's own SaaS products.
- Full-Stack Web Development:** Build responsive web applications end to end with Vue.js, Nuxt.js, and Next.js on the frontend, and Node.js backends deployed on Google Cloud using Cloud Functions, Cloud Run, and other GCP services.
- NetSuite Customization:** Customize NetSuite with SuiteScript beyond PDF reports, including custom report pages and transaction pages.

2021 - 2023

Web Developer (Part-time)

MiDi Technology

Vientiane, Laos

- Web Development:** Built responsive web apps with HTML, CSS, JavaScript, and React across several projects.
- Cross-Team Collaboration:** Worked closely with backend developers, project managers, UX/UI designers, and clients to deliver projects on time.
- Integration:** Connected frontend components to APIs and databases with the backend team.

2022

Software Developer (Intern)

Lailaolab ICT Solutions

Vientiane, Laos

- Web & Mobile:** Helped design and develop web and mobile applications with the team.
- Quality:** Ran testing and debugging to keep applications stable and working.
- Best Practices:** Applied clean-code, security, and performance practices while learning on the job.

Side Projects

Lao Karaoke

- A free web tool that converts Lao text to karaoke (Latin letters) and back. Built with Astro, TypeScript, and TailwindCSS.

Kobkua

- A private, offline-first family contact manager with birthday reminders. Built with Flutter for Android.
